

KT Series

Metal two wires detection device.
 Non contact type Metal two wires detector,
 may detect overlap of metal sheet including:
 Iron, Aluminum, Copper, Stainless steel..etc.
 Avoid improper feeding to damage
 machinery.

Specifications

Amplifier Unit	KT001	
Sensor Unit	DD-18	DD-30
Sensing distance	20mm	30mm
Amplitude	<10mm	<20mm
Method of detection	Separate type	
Operating voltage	110 / 220VAC±10% · 50/60 Hz	
Max. switching power	1C · 2A 220VAC	
Output signal	NPN 100mA · <40VDC	
Response time	<50ms	
Connecting method	Pre-wired 5M Cable	

UNIT: mm
